Mi Home Security Camera 360°

Mi Home Security Camera 360° 1080p

All-round protection in Full High-Definition video

1080p FHD | 360° Vision | Infrared Night Vision | AI motion detection |
Talkback feature | H.265 encoding | Inverted installation
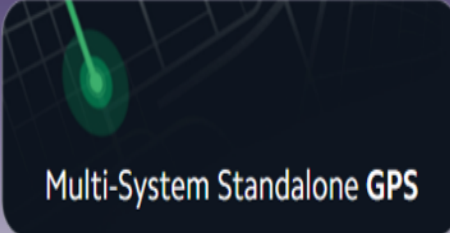

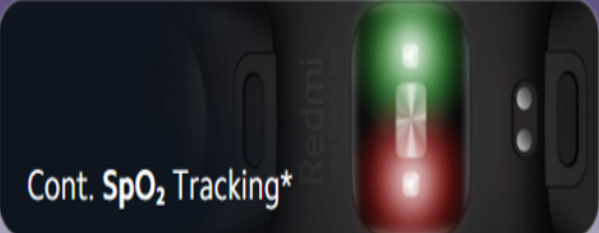

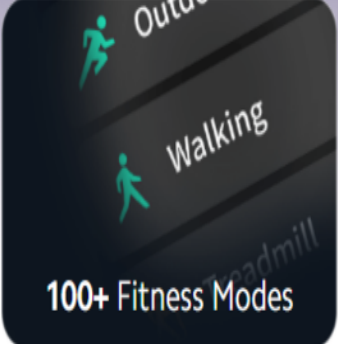

- The dual rotor head enables the camera to rotate and capture a full 360° horizontal view and 96° Vertical view.
- The f2.1 aperture allows more light intake, while the 8-bulb 940nm infrared illuminator increases visibility.
- The Mi Camera 360° has perfect picture quality. With 2.0 megapixel, 1080p resolution and wide dynamic range, even distant backgrounds are clear and detailed.
- Advanced video encoding technology. This all-new video encoding technology allows smoother streaming and reduces bandwidth without compromising on detail.
- Conveniently store videos. Supports Network Attached Storage (NAS). Network devices or routers with storage capabilities can be used to store files that are backed up from SD cards to NAS storage devices
- View recorded videos on your smartphone or tablet with playback speed up to 16x.
